STAS-LIFTEUROP Widens Range of Lifting Accessories

font size   

Rate this item  (0 votes)

The STAS-LIFEUROP range of lifting products and accessories, part of the ALIPA Group based in Wiltz, has announced that it has widened its range of lifting accessories with the inclusion of new male and female fixed hoist rings and new screw pin anchor shackles, all high resistant and from the STAS brand.

To meet the demands of its clients in a flexible and responsive way, STAS-LIFTEUROP guarantees that its delivery times are always kept to a minimum, thanks to its huge stock of fixed hoist rings and shackles. Thanks to the ready availability of these parts, STAS-LIFTEUROP can take orders for large volumes. These products are fully certified, meet the most stringent standards and are delivered individually packaged with their certificate of conformity, instructions for use and a CE declaration.

Supplied with complete markings that state the steel class, the ring type and its traceability number, the working load limit, CE marking and STAS contact details, the high-quality products offer top-class technical properties, at exceptionally competitive prices.
